

April 5, 2021

Safe Haven Defense Texas has treated LVISD with respect and dignity in presenting its product. Lou and Catherine have gone above and beyond. I along with several members of the La Vernia Police Department and neighboring companies was able to witness a personal demonstration on the product. During the presentation, we were able to witness the superior protection that the security laminate provides with multiple intrusions such as rocks, baseball bat, and most importantly multiple rounds of high-powered ammunition. In schools, today outside threats are a reality, and knowing that a product that Safe Haven Defense Texas is providing has the ability to protect the lives of our students at La Vernia ISD. After the demonstration today I have witnessed that this is a proven product and feel safe that this product would help mitigate and protect the lives of my students at LVISD. Thank you Safe Haven Defense Texas for putting LVISD in your thoughts and a high-quality level of protection.
