

My name is Dr Joel Odom and I'm the pastor at Oak Hills Community Church in Floresville. I was introduced to the Safe Haven Defense Team in January of 2021 and I was very impressed. They are professional and courteous. They wanted to donate all the materials and labor to the church using it as a training site for future employees. They did two glass doors one entering our sanctuary and the other our life center. They did an outstanding job and provided for us comfort knowing that our congregation would be protected and that our building would be more secure. I would highly recommend them to any business, school district or company that cares for the safety and welfare of their employees or students. We are very pleased!
